The City of Mexico retained the engineering services of Horner & Shifrin, Inc. of St. Louis, Missouri in 2008 to complete a capital asset analysis and facility plan on the City’s wastewater treatment operation. On April 27, 2009, Horner & Shifrin Inc. made a presentation to Council on their findings and recommendations. The study clearly revealed that our aging infrastructure, industrial pretreatment program, and modifications to the regulatory requirements mandated by the Department of Natural Resources for effluent limitations created an immediate need for an upgrade of our existing wastewater facilities. The facility plan outlined an estimated \$12,461,400 in capital improvements, with an initial Phase I estimated investment of \$5,733,400 with the remaining facility and infrastructure improvements being made through succeeding phases. Following Horner & Shifrin, Inc.’s presentation, Municipal & Financial Services Group reviewed with Council a multi-year financial projection of wastewater rates required to cover costs associated with operations, maintenance, and upcoming capital projects of the wastewater treatment plant. Voters approved through a bond election held on August 4, 2009, sewerage system revenue bonds in the amount of sixteen million dollars (\$16,000,000) by a margin of 10 to 1. On August 24, 2009, with applicable Public Hearings and voter approval for issuing revenue bonds, City Council approved by Ordinance an amendment to change sanitary sewer use charges allowing for the funding mechanism to get needed capital improvements underway. With wastewater treatment facility and collection system improvement plan phases in

and a 10-year financial projection of wastewater rates supporting costs associated with operations, maintenance, and capital projects, staff moved forward and secured bond financing in the amount of \$5,765,000 for Phase I and \$5,695,000 for Phase II. In keeping with updated financial projections presented to Council and the public, a scheduled sewer rate adjustment is required to provide adequate financial resources for debt service and continued improvements to the wastewater treatment facility and collection system. Deputy City Manager Haynes recommended Council proceed with the advertised public hearing.

Council Members and City Staff held discussion regarding the proposed sanitary sewer use rate charges.

No Public Comments were received.

Council Member Williams moved to close the Public Hearing. Council Member Shivers seconded the motion. On a call by the Chair for ayes and nays, the motion carried, with the vote on passage as follows: Ayes, Miller, Williams, Shivers, Briggs. Nays, none. Absent, Nichols. The Public Hearing was closed.

City Manager Slagle stated that the Public Hearing was held earlier providing Council background and future planning information for necessary capital improvements to the wastewater treatment facility and collection system. Staff has provided Council and the public a 5-year financial projection of wastewater rates required to cover costs associated with operations, maintenance, and capital projects currently underway and forthcoming addressing both capacity and compliance in the City’s wastewater treatment operation. Based on the 5-year financial projection staff provides the following comparison between current rates and the proposed rates.

NEW BUSINESS – RESOLUTIONS (READING BY TITLE ONLY AND PASSAGE)

Bill No. 2018 – 60. A Resolution of Support for the Citizens of Mexico, Missouri to Inform Themselves About Missouri Proposition D to Fund Missouri's Transportation System.

Mayor Miller called upon City Manager Slagle to present the report.

Missouri's state highways, county roads, municipal streets and bridges are transportation, economic and public safety lifelines. Missouri has 33,856 miles of state highways, 73,698 miles of county roads, 23,000 miles of city streets, 10,400 state-owned bridges and 14,089 bridges owned by local governments.

Missouri has not raised its state motor fuels tax since 1996, and has in the ensuing 22 years seen a significant erosion in its purchasing power for road and bridge construction and maintenance.

There is a growing awareness among Missouri citizens that our state and local roads and bridges are in dire need of repair. The Missouri General Assembly moved affirmatively in 2018 to address the state's road and bridge funding crisis by referring House Bill 1460 to the voters, to empower Missouri citizens to have the final say on raising the state motor fuels tax to restore purchasing power and accelerate road and bridge projects. Proposition D will improve the safety of state highways and local streets and bridges and after full implementation, produce more than \$124 million in new annual funding for local streets and bridges statewide. The Missouri Department of Transportation estimates that, the City of Mexico, Missouri, upon full implementation will receive \$181,561 in new annual revenue from Proposition D for city street and bridge projects. The combined positive impact of increased purchasing power for projects, safer roads and bridges, and improved transportation routes to strengthen Missouri's geographical advantages in business, agriculture, tourism and international commerce, will advance Missouri's economy and quality of life. City Manager Slagle recommended Council proceed with reading by title only and passage of Bill No. 2018 – 60.

Design of the sidewalks requires additional right-of-way and construction easements to avoid existing utility poles. Council approved accepting right-of ways and temporary easements from nineteen (19) property owners at the February 12, 2018, February 26, 2018, March 12, 2018, April 23, 2018 and July 23, 2018 meetings. This project resurfaced Liberty Street between South Clark Street and Tyronn Lue Blvd and provided various ADA improvements throughout the project limits. The original contract bid amount was \$298,486.89 with a final project cost of \$333,293.90 (\$34,807.01, 11.66% overrun). This increase in cost is primarily due to overages in asphalt tonnage, concrete sidewalk areas and driveway approach areas. The City currently has \$313,411.00 budgeted for this project. The additional \$19,882.90 will be covered by the Asphalt Overlay budget line item in the Capital Improvement Sales Tax fund, where a combination of savings from other projects, as well as project reserves, will cover the additional cost incurred during this project.
